

## AIR TRANSPORT DATABASES

### OUR PRODUCT

**Air transport data** about worldwide airports and airlines (traffic, finances, fleets, ...)

Collected from **all available sources** (including our own surveys)

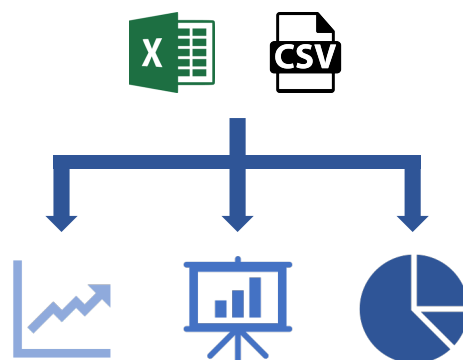

Gathered in databases with **long historical series** (40-50 years for the oldest)

### OUR SERVICES

**Fast delivery** of selected and checked data to meet your needs (forecasting, market analysis) in a **directly exploitable** form (excel, csv, ...)

How to access?

- Annual subscription allowing multiple requests
- One-shot specific request

### OUR ACHIEVEMENTS

Our services are used by several **leaders** of the civil aviation industry across the world for more than **30 years**

Guillaume Boyer, Airline Marketing, **VINCI Airports** :

*« Fast access to reliable data is crucial for VINCI Airports traffic analysts. That is why we regularly rely on the database provided by France Aviation Civile Services. We are very satisfied with the reactivity of France Aviation Civile Services team and the quality of delivered data. »*

## AIR TRANSPORT DATABASES

### OUR DATABASES

We have **Yearly** data for most airports and airlines and **Monthly** for the main ones

Feeding 3 databases :

- **“Airlines”** containing detailed information about 600 airlines throughout the world since 1980 : traffic data, financial results, and fleet at least for most
- **“Traffic flows”** including all country-pair and city-pair data (number of passengers) for over 200 countries and 2500 airports world-wide, every year since 1970
- **“Airports”** gathering data on more than 2500 airports world-wide, collected from a variety of sources every year since 1970. Mainly the number of passengers, aircraft movements and freight
