## Our databases

**Airlines:** detailed information from around the world since 1980:  
traffic data, financial results and fleets

**Airports:** data on more than 3,000 airports worldwide, collected from various sources  
since 1970: passengers, aircraft movements, freight...

**Passenger traffic flows:** country-by-country and city-by-city data for over 200  
countries since 1970

Collected from different sources, including our own surveys, with long historical  
series, 40 - 50 years for the oldest.

## Our e-platform

We developed an e-platform able to analyse the current traffic, based on the ATD  
"traffic flows" database.

Visualisation of **air traffic worldwide** CAGR (Compound Annual Growth Rate) graphs  
and passenger trends

Historical data since **2010**

**Collected** and not calculated data

**Analysis** and **comparison** mode

Available **24/7**

From Mid 2022

Yearly movements and cargo traffic

Monthly passenger traffic starting January 2019
